Eleven Men Wounded by Flying Debris -Foreman Harriman Arrested.

A terrific explosion shook East Sixty-third street at about 8 o'clock this morning, and a hupe rock was hurled into the air among a gang of workmen employed between Avenue

A and First avenue. Patrick Cassidy, forty-seven old, of 1099 First avenue, and Peter Reynolds, of 253 West Sixtieth street, who were of the number handling pick-axes, were hit by pieces of rock and sustained painful injuries. Reynolds had his leg broken, and sustained other slighter injuries from cuts. Cassidy was severely cut in the leg. Both men were taken to Roosevelt Hospital.

wounded by the flying debris, but their names and addresses could not be ascertainen.

The scene of the explesion was on and just south of Sixty-third street, between First avenue and Avenue A.

Something like two bundred workmen were employed there by J. D. & T. E. Crimmins, who have contracted to build a large tank for the Consolidated Gas Company.

To do this it was necessary to sink a cellar to the depth of fifty-two feet, extending between Sixty-scond and Sixty-third streets, and something like 150 feet in width.

In one part of the lot the blasting and digning out processes have created a depth of nearly fifty feet, or some twenty feet more than on any other part of the ground.

The last blast, according to Foreman Patrick Conley, was fired over a week ago, but nevertheless this morning at about 8 o'clock, when over forty men were at work in this "pit," suddenly and without warning something very like a blast did occur and caused the above-mentioned injuries to work-men.
